

# Customer journey map

Scenario: [A user's journey while interacting with an existing product or service]	 <b>Entice</b> How does someone become aware of this service?	 <b>Enter</b> What do people experience as they begin the process?	 <b>Engage</b> In the core moments in the process, what happens?	 <b>Exit</b> What do people typically experience as the process finishes?	 <b>Extend</b> What happens after the experience is over?
 <b>Experience steps</b> What does the person (or people) at the center of this scenario typically experience in each step?	 The user experiences or interacts with product or service.  The user is asked for the phone app to make notes and click on the app icon.	 The process of starting to use the product or service.  The user downloads the app and starts the onboarding process.	 The core experience of using the product or service.  The user starts using the app to track his workouts and how he feels his progress.	 The conclusion of the experience with the product or service.  The user reflects on their experience to the app.	 The period after the core experience.  The user receives follow-up communications from the app, such as reminders and prompts.
 <b>Interactions</b> What interactions do they have at each step along the way? <ul style="list-style-type: none"><li>■ <b>People:</b> Who do they see or talk to?</li><li>■ <b>Places:</b> Where are they?</li><li>■ <b>Things:</b> What digital touchpoints or physical objects do they use?</li></ul>	 Advertising, social media, word of mouth.  The video on the app's website and social media from other users.	 Website and customer support.  The onboarding in the app for new users and the onboarding process.	 Regular use, feedback mechanisms.  The interaction with the app features, such as adding goals and tracking his progress.	 Final interactions, support.  The interaction with the app's customer support team to report an issue.	 Personal communications, regular progress.  The feedback with the app's quality program and feature requests.
 <b>Goals &amp; motivations</b> At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")	 Curiosity, need for information.  The user wants to get a sense and stay healthy.	 Ease of use, understanding features.  The user wants to understand how to use the app and start tracking his workouts.	 Achieving goals, enjoying the experience.  The user wants to achieve his fitness goals and stay motivated.	 Completion, satisfaction.  The user wants to share his satisfaction with his family.	 Staying healthy.  The user wants to share his health goals with his family and friends.
 <b>Positive moments</b> What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?	 Easy-to-use, engaging content.  The user is happy and gets to interact.	 User-friendly interface, helpful support.  The app's interface is easy to use and the onboarding process is simple.	 Effective features, good feedback.  The app provides personal and motivational feedback to help him stay motivated.	 Great customer support, helpful support.  The customer support team is helpful and responsive.	 Personalized communications, rewards.  The quality program is motivating and provides useful advice.
 <b>Negative moments</b> What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?	 Missing all sort of information.  The website is very slow.	 Confusing, long learning time.  The app asks for too many permissions.	 Lack of desired features.  The app creates confusion.	 Difficulty in completion, prompt support.  The cancellation process is complicated.	 Personalized communications, rewards.  The communications are too frequent.
 <b>Areas of opportunity</b> How might we make each step better? What ideas do we have? What have others suggested?	 Improve onboarding and create a better experience.  Increase the website's loading speed and provide more detailed information about the app's features.	 Simplify the onboarding process and reduce the number of permissions requested.  Simplify the onboarding process and reduce the number of permissions requested.	 Enhance features, improve feedback mechanisms.  Improve the app's design and create more features to help users stay motivated.	 Streamline the exit process, improve support.  Simplify the cancellation process and provide more options for users to cancel their subscriptions.	 Personalize communications, enhance quality programs.  Personalize communications and provide more options for users to cancel their subscriptions.
